## Music Fest

After three years pause with complications due to Covid, DAA once again opened its doors to host the Dakota Conference Music Festival. It was shorter in duration and focused only on choir this year, but we enjoyed getting to be with our sister schools and renewing friendships begun at Outdoor School. Since only three students are in grades 3-8, we had a small group of three girls. Besides

participating in the mass choir, they also sang in a trio for the program.

## Ididaread

Only a little over a week is left before 2023 Ididaread is in the books. Reading logs must be completed and turned in by March 1 in order to participate in the Red Lantern Party which will be skating at the Dickinson Ice Center on March 1. Cost per student is \$2 which includes skate rentals.

## Francisco Javier

Check out the latest update posted on the little bulletin board by the office door. Thank you to those who continue to give to support this young man.

## Boxtops for Education and CashWise

If you are wishing to support the school through the Boxtops for Education program, you no longer have to snip and save boxtops. You download the Boxtops4Education app, select our school online, and then simply scan your receipt on your Smart Phone using the app. You may also still support us by shopping at CashWise and designating our school as the recipient of your rewards. We get a check from them a couple of times a year, and that is much appreciated!

### STEM Challenge

Grades 3-6 are studying physics and chemistry in science class this semester. One of our “Test and Try” activities was to design and construct a boat made of a 1’ x 1.5’ piece of aluminum foil. The goal was to create a vessel that would hold as many pennies as possible without sinking. We had some very interesting designs. The ones that held the most pennies were made by: 1) Milo—held 172 pennies! 2) Mrs. Wright—held 106 pennies; 3) Carter—held 73 pennies.

**If you want to walk on water, you have to get out of the boat.**
